censhare Workfront Connector

Get the best of both worlds and connect the industry-leading Work Management Solution Workfront to the world-class Content Hub censhare.
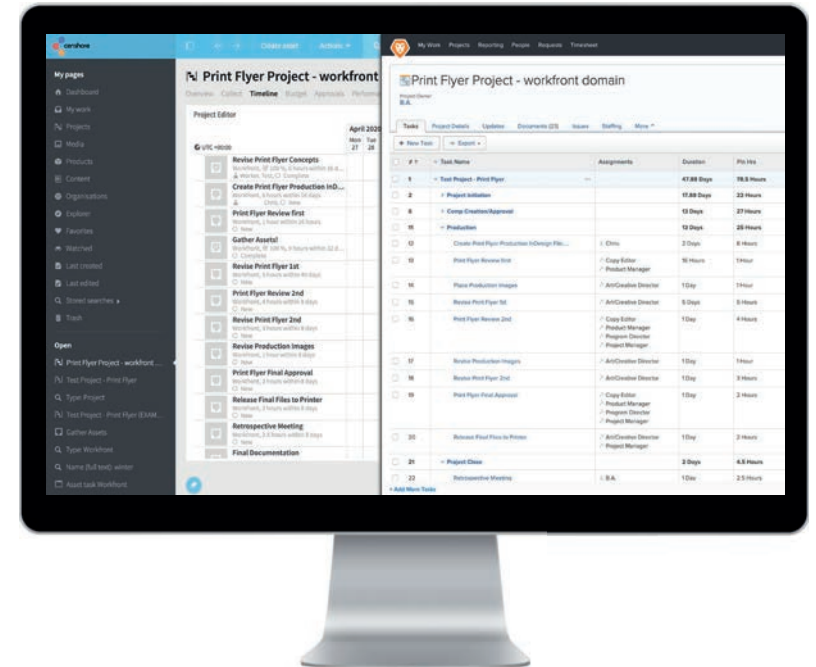

Project Workflow & Task Sync
▶ Projects and Tasks created in Workfront are pushed to censhare
▶ Hours and comments logged in censhare are pushed to Workfront
▶ Users work in the system best suited to their responsibilities, wether censhare or Workfront, but benefit from the strength of both systems

censhare DAM as Workfront storage
▶ Assets attached to Projects or Tasks in Workfront are stored in censhare
▶ Assets stored in censhare are visible from Workfront, and can be linked to work
▶ Organizations already using censhare can leverage existing assets in Workfront
▶ censhare provides capabilities far beyond those of existing DAM integrations in Workfront

censhare extended by proofing solution proofHQ from Workfront
▶ Assets can be send from censhare to proofHQ workflow in Workfront
▶ Proofing results from proofHQ are directly visible in censhare
